

Careers Bulletin.

Hello from Careers, we hope you are keeping well.

We have an exciting series of careers events coming up next week. My Week of Work, running all next week, sees careers lessons from the [Oak National Academy](#), and [Learn Live](#) events in which you can ask employers about their work and why they love it.

These sessions will help you to understand how to promote yourself to employers, more about different kinds of business and what employers are looking for in their new recruits.

Every student should try to access at least one Oak National Academy lesson and one Learn Live session, if possible. You can access the sessions that you feel are most relevant to you, but if you have to choose between a Learn Live session and an Oak Academy lesson because their times clash, it is best to prioritise Learn Live because the employers are only available to question during the sessions and the Oak Academy lessons are available to access at any time. There is more detail on the following pages.

Please let us know what sessions you have accessed and how useful they were by emailing liz.tattersall@Charlton.uk.com. You can also use this email address to ask any other careers questions you have. Please keep in touch and let us know how you are getting on.

The Learn Live sessions, from Tuesday, have employers ready to answer your questions. You can attend as many of the sessions as you wish and more sessions may be added so keep checking the website. You need to register [here](#).

If you don't know whether to attend a Learn Live session or an Oak lesson because the timings clash, you should attend the Learn Live session as the employers will only be available at the given time, whereas the Oak lessons can be accessed any time. The links for the Oak Lessons will be uploaded to Doodle for each day for you to access.

Suggested questions you could ask the employers:

- How do you get work-life balance?
- What is it about your work you like or dislike?
- What does success mean to you?
- Is this what you thought you would be doing when you were at school?
- Why should I be interested in your industry?
