

Transition to Charlton School

Year 6 Transition pack

Subject: History

History is all about learning how the past has shaped the world today. In Year 7 you will learn different skills to then learn all about the life in Britain from 1066 and the Norman Conquest, we will then study events and periods chronologically up until the Industrial Revolution and the impact it has had in our local area (Telford)! There is lots to learn and we hope you find it very interesting!

Transition activities

- 1) **Find out about what life was like before 1066:**
 - Who were the Celts?
 - Who were the Vikings?
 - Who were the Romans?
- 2) **Famous Historical People-** Create a factfile of an interesting person from History. You could include their date of birth, where they are from, what they did and why you find them interesting. The more obscure the better. We love learning about new things in the History Department!
- 3) **Castles-** William I built castles all over England to help him rule. Design your own castle. Think about what features would make it strong and able to protect you.
