

# Welcome to GCSEPod

# GCSEPod helps your child to:

**gcsepod**  
education on demand

Accelerate progress  
and raise results.

Consolidate subject knowledge  
and improve recall.

Improve engagement and encourage  
independent learning.

# When used effectively, GCSEPod can have a BIG impact on final grades

**gcsepod**  
education on demand

Data from over 2,200 students shows that higher GCSEPod users are more likely to exceed their predicted grades by a larger margin than those who don't use GCSEPod.

High academic year usage yielded a greater impact than high usage in just the exam period.

On average, highest users received 3 grades higher across their subjects than predicted.

Average Predicted versus Achieved Attainment 8 by Category of GCSEPod User

High Users = average 122 Pods watched in academic year  
Medium = average 34 Pods watched in academic year  
Low = average 6 Pods watched in academic year  
Non Users = 0 Pods watched in academic year

# How to ensure your child benefits from GCSEPod...

# Anywhere, Anytime

To the shops

At school

In the car

On holiday

At home

On the paper round

Travelling to and from school

At the gym

*My son found the GCSEPods very handy as he could listen to the videos on the school bus in the morning.*

*He did really well in his GCSEs so we both appreciate your resources very much.*

*Parent*

# Maximise learning time at home

- If your child is stuck on homework, search for the relevant GCSEPod video using the search and watch the Pod together:

- Encourage your child to watch a Pod video rather than Googling the answer to a question.
- Listen to Pods together and test each other on what you have learned.
- Use the Pods to brush up on your own knowledge before helping with homework.

**Over 31 million Pods have been watched on GCSEPod.**

**68% have been watched out of school hours.**

# Tips for using GCSEPod with your child

1. Watch **online** or **offline!** Download Pods to a mobile device before travelling. This way you can make normally wasted time into productive learning time.
2. Create **Playlists!** Use the **My Playlist** area to create bespoke playlists on topics that they may find challenging. This gives fast access to Pods that will help to fill in knowledge gaps.
3. Use **memory cards!** Watch the Pods and then together write **key facts, dates, diagrams and quotes**. Then test their knowledge to see how much they remember.

*Top Tip\* Turn it into a competition and reward your child for correctly answered questions.*

# The advantages of using GCSEPod...

**gcsepod**  
education on demand

GCSEPod helped my daughter enormously with her GCSE revision. The Pods were clear and easy to understand and she could write notes while they were on.

I remember helping her revise and any concept she didn't understand she'd say 'don't worry, I'll watch that on GCSEPod'.

Next time I tested her on the topic she would have a full understanding. It was a great help in her achieving her excellent GCSE results.

Parent

**Evie had an amazing set of results, mainly 8s and 7s! I think GCSEPod is really helpful - especially for her science subjects (she did combined science) and got 8, 7 - brilliant!**

**Parent**

**Wow! Emma actually asked if GCSEPod counted as revision as she can't believe it! I can't believe it either! How fantastic to have a resource that meet students on their level, I am blown away! She actually does not feel as though she is doing revision!**

**Parent**

# Retrieval Practice

Practice bringing information from memory for better results.

“**Retrieval Practice**” is a learning strategy where we focus on getting information **OUT**. Through the act of retrieval, or calling information to mind, our memory for that information is strengthened and forgetting is less likely to occur.

## At-home activities using Retrieval Practice

- Watch a Pod with your child.
- Ask your child to write key words on a flash card.
- Watch the Pod again – your child should summarise their knowledge of each key word on the back of each flash card.
- Allow your child time to flesh out their cards with as much information as they can remember.
- Test your child by asking them to define the flash card words without looking.

# Spaced Practice

Practice bringing information from memory for better results.

It has been proven that by reviewing at regular intervals, you can reduce how much you forget to just 10%.

# Spaced Practice

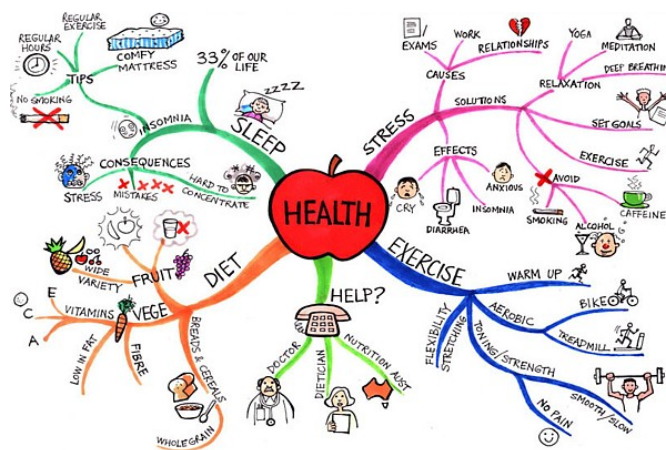

Revise, rest, repeat.....space out revision for better results

Reviewing 4 times within a month can help you remember nearly 100%

Immediately After Class

## Mind Mapping

Encourage your child to watch a Pod and write down all the key words. Then, from memory, ask them to fill in as much information as they remember on a mind map.

4 Hours Later

## Review Maps

Cover your child's mind map and see how much they remember. Highlight the information they couldn't remember and recommend revising the topic again.

# Spaced Practice

Revise, rest, repeat.....space out revision for better results

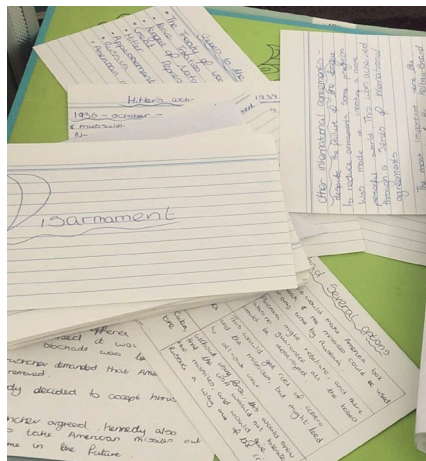

Reviewing 4 times within a month can help you remember nearly 100%

1 Week Later

---

## Memory Cards

Encourage your child to create their own questions with the answers on the reverse. Then, test their knowledge.

1 Month Later

---

## Past Papers

Encourage your child to watch GCSEPod's Pods again and then practice past papers.
